

**AQUAWORX™**  
by INFILTRATOR®

**Put Septic System Troubles Behind You**

When faced with replacing your septic system, the common solution can take a lot of time and result in costly damage to your landscaping. Simply insert the Remediator into the septic tank and in as little as two weeks, the system is restored.

**The Benefits of an Aquaworx Remediator™**

- Eliminates the need for a complete drainfield replacement.
- Minimal landscape damage
- Inexpensive to have installed, operate and maintain:  
The Remediator uses a 40 lpm air pump, which draws 7 amps.  
The average monthly cost to run the air pump is \$2.50.
- A permanent, non-invasive environmental solution.
- More than 4,000 failing systems have been repaired successfully with this technology.
- Backed by the leader in the onsite wastewater industry's strongest performance warranty.

**THE CHOICE IS YOURS...**
